

Color Me Confident

While color is a small detail in the larger scope of playground planning, it shouldn't be an afterthought. Colors can tell a story and evoke a feeling. They guide the eye and inspire play.

From warm, sunset shades that invigorate to cool, tropical tones that calm, there's a perfect combination for every play space.

Choosing a color palette can be fun, but it's also a lot of work. Not sure where to start? Try assigning certain colors to a material or type of activity. When in doubt, take inspiration from your environment, whether it's your school colors or the native flora and fauna. Don't be shy—color yourself confident.

Colors are subject to change without notice. Color swatches are for reference only. For accurate color samples and the most up-to-date specifications consult your local representative. Playworld uses high quality materials and state-of-the-art manufacturing processes. Commercial playgrounds and products are subjected to years of environmental and solar exposure. Such extreme exposure takes its toll on paints and pigments, and all colors will fade over time. Playworld does not warrant against color fading or discoloration. It is important to properly maintain your playground to ensure its longevity. Depending on environmental conditions at your location, the installation of fabric shade structures may help to delay fading and discoloration.
